Dear IKS-member,

The Euroschool on Exotic Beams will again be organized in Leuven on Sept. 4-8, 1995 and we kindly ask anyone who wants to participate to register as soon as possible (before end of May)  
The program looks like this

Euroschool on Exotic Beams  
Leuven, Belgium  
September 4 - 8, 1995

DIRECTORS

P.G. Hansen (Aarhus), M. Huyse (Leuven), B. Jonson (Göteborg),  
W. Mittig (Caen), A.C. Mueller (Orsay), G. Münzenberg (Darmstadt),  
E. Roeckl (Darmstadt), P. Van Duppen (Geneva) and J. Vervier  
(Louvain-la-Neuve)

LECTURES

"Accelerators for radioactive beams"  
M. H. Moscatello (GANIL, Caen)

"Detectors for exotic nuclei : high-resolution detectors"  
W. Gelletly (University of Surrey)

"Detectors for exotic nuclei : tracking of particles"  
B. Sherrill (NSCL, Michigan State University)

"Nucleosynthesis in astrophysics"  
F.K. Thielemann (University of Basel)

"From elastic scattering to giant resonances"  
N. Alamanos (CEN, Saclay)

SPECIAL TOPICS

"Mass measurements far from stability"  
W. Mittig (GANIL, Caen)
